

## Setup TwoFactor VPN instructions

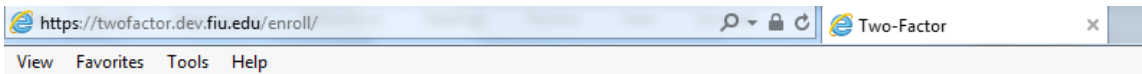

In order to get started with the TwoFactor way to use FIU VPN, you need to enroll your phone with our two factor solution. You can do so by visiting <https://twofactor.dev.fiu.edu/enroll>. Follow the steps on the screen to enroll your phone.

*Step 1: open <https://twofactor.dev.fiu.edu/enroll>. Use the MyAccounts username and password to log in. Then, follow the steps on the screen to enroll your phone. For example: +86 15122225555. Once you enrolled your cellphone number, you will receive a text message with hyperlink in your cellphone from FIU. Click the link and install DUO APP into your cellphone.*

## Two-Factor

A screenshot of a login form for FIU Two-Factor. At the top is a grey circle with a person icon. Below it are two input fields: "Username" and "Password". At the bottom is a yellow "Log In" button.

**Step 2:** Once you have enrolled your phone, you can open VPN client software from computer and input [vpn.fiu.edu](http://vpn.fiu.edu). You will notice that there will be three fields, username, password, and **second password**. In the second password field type **the code you create from DUO app**.
